

Casi di morte in culla e copertura vaccinale per DTP (difterite, tetano, pertosse) dopo la raccomandazione di far dormire i bambini a pancia in su (modificato da Hatton F et al. Trends in infant mortality in France: frequency and causes from 1950 to 1997. Arch Pediatr 2000).

Linea verde: casi di pertosse;
linea blu: percentuale di bambini vaccinati con DTP;
linea rossa: casi morte in culla ogni 100.000 nati vivi.
